2- days Faculty Training Program:

We are pleased to inform you that we are planning to conduct a two-day Training Programme for faculty members from across India from 19th to 20th November 2026.

As part of the programme, participants will have the opportunity to visit and observe the operational plants of RCF and gain insights into various **operations and maintenance activities** carried out across the **Chemical, Mechanical, Instrumentation, and Electrical disciplines** within the organization. These visits are intended to bridge the gap between theoretical knowledge and practical exposure, thereby enhancing the participants' effectiveness in teaching and enabling them to incorporate practical industry insights into their academic curriculum.

We believe that these industrial visits will provide faculty members with valuable first-hand practical insights, enhance their understanding of real-world industrial practices, and enrich their overall learning experience.
